

NODE RED

The screenshot shows the Node-RED 2.2.1 web interface in a browser. The browser's address bar displays the URL: `node-red-wngxd-2022-11-09-syd.mybluemix.net/red/#flow/150be3459809d82a`. The interface features a central workspace for editing flows, with a left sidebar for node selection and a right sidebar for flow management.

Flow Editor: The main workspace shows a flow named "Flow 1" with two nodes connected: "Hello Node-RED!" and "msg.payload".

Left Sidebar (Nodes): The sidebar is divided into two sections: "common" and "function". The "common" section includes nodes like inject, debug, complete, catch, status, link in, link call, link out, and comment. The "function" section includes function and switch nodes.

Right Sidebar (Info): The "info" panel on the right shows a search bar and a list of flows. The selected flow is "Flow 1" with ID "150be3459809d82a". Below the flow list, there is a section for "Flow 1" showing its configuration and a "click" button.

Modal Window: A central modal window displays the "Welcome to Node-RED 2.2!" message. The text reads: "Welcome to Node-RED 2.2! Let's take a moment to discover the new features in this release." Below the text is a "Start" button.
